Every team in every global organization faces **novel** **challenges** right now.

As we come back together after an extended period apart, collective intelligence has never before been more of a challenge, or a strategic priority.

But dealing with defensiveness, fostering collaboration, and emphasizing relationships are Time To Grow Global's specialties. In our uniquely customized, compact, and affordable Reboots, our top experts will work with your teams to:

- Identify how you can realign on strategic goals, together
- Explore where and how your focus should be for optimal team performance
- Advise on how you can create the best conditions for collective intelligence in your specific team and industry.

To-the-point and cost-effective, our Team Reboots take place over several days for timely action with maximum impact.

Program Details

Who is it for?

Our Team Reboots have been designed for teams that:

- Have a collective leadership responsibility for a business or functional area.
- Recognize that now they need to foster collective intelligence and trust building more than ever.

The program

All Team Reboots are uniquely tailored to your strategic goals and the challenges you want to tackle. They involve:

- Identifying ways to reactivate communication and trust after a long period apart.
- Acknowledging and tackling defensiveness and similar responses to operating in “crisis mode”.

We will:

- Explore functional and dysfunctional interaction patterns your team observes or anticipates, and their impact on the teams agility and performance.
- Identify critical ways for your team to tackle them and boost its collective intelligence.

We will be working with:

- A personal 360 tool to collect the data about interactive behavior.
- A teamscan to identify the teams strengths, pitfalls, triggers and and barriers.
- Individual prep sessions for all team members.
- A collective session to integrate all findings and workshop the way forward.
